ENERGY STAR® Home Energy Yardstick

EPA's Home Energy Yardstick compares your household's actual energy use to similar homes and assigns it a score from 0 to 10 (10 being the most energy efficient). An average household scores a 5.

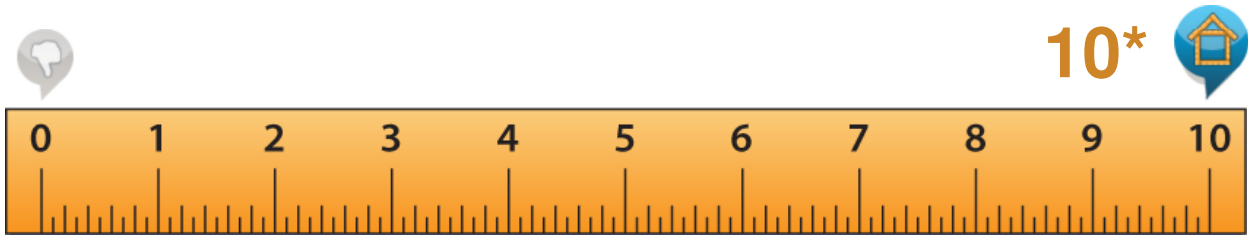
Your Home

29 Germain Street
Burlington, VT 05401

Occupants: 2
Square Footage: 1,150
Fuel Types: Electricity, Natural Gas

Your Score

April 2015 - March 2016



Your Energy Use

Annual Electricity Use: 1872.6 kWh

Annual Natural Gas Use: 374 Therms

Annual pollution resulting from energy use in this household is **6 MtCO2eq of greenhouse gas emissions** - the equivalent of **1 car**.

Monthly Energy Use

What does this graph tell me? (408KB)

*How you operate or use your home may lower your score. Activities and equipment that often impact a household's score include: a home office or home business,

swimming pool, spa, sauna, pottery kiln, or well pump, as well as a thermostat setting above 72° F for heating or below 76° F for cooling.
